INDEPENDENT AUDITORS' REPORT

Board of Directors Alabama Housing Finance Authority

We have audited the accompanying statements of net position of the Alabama Housing Finance Authority (a component unit of the State of Alabama), as of September 30, 2021 and 2020, and the related statements of revenues, expenses, and changes in net position, and cash flows for the years then ended and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Alabama Housing Finance Authority as of September 30, 2021 and 2020, and the results of its operations and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis information, schedules of changes in the Authority's net pension liability and related ratios, and schedule of employer contributions to Authority employees' pension plan on pages 3 through 6, 34, and 35, respectively be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audits of the basic financial statements. We do not express an opinion or provide any assurance on the information or provide any assurance.

Other Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying additional segment data is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The additional segment data is the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the additional segment data is fairly stated in all material respects in relation to the financial statements as a whole.

Warren averett, LLC

Montgomery, Alabama December 15, 2021

Introduction

This section of the annual financial report of the Alabama Housing Finance Authority (the Authority) presents management's discussion and analysis of the financial position and results of operations for the fiscal year ended September 30, 2021. This information is being presented to provide additional information regarding the activities of the Authority and to meet the disclosure requirements of Government Accounting Standards Board (GASB) Statement No. 34, Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments. This analysis should be read in conjunction with the Independent Auditors' Report, financial statements, and accompanying notes. Operations of the Authority include: (1) purchasing and securitizing single-family mortgage loans of qualified borrowers, (2) servicing Authority and other entity mortgages, (3) implementing and managing housing-related Federal Programs, and (4) issuing bonds to purchase loans for single-family residences and multifamily developments. The Authority is an approved seller and servicer with the Government National Mortgage Association (Ginnie Mae), the Federal National Mortgage Association (Fannie Mae), and the Federal Home Loan Mortgage Corporation (Freddie Mac). The Federal Programs managed by the Authority are Low-Income Housing Tax Credits, the HOME Investment Partnerships Program (HOME), the Tax Credit Assistance Program (TCAP), the Exchange Grant Program, the Hardest Hit Alabama Program (Hardest Hit Alabama), the Housing Trust Fund (HTF), the Emergency Rental Assistance Alabama Programs (ERA and ERA2), the Mortgage Assistance Alabama Program (MAA) and the HOME Investment Partnerships - American Rescue Plan Program (HOME-ARP). The Authority is entirely self-funded and does not draw upon the general taxing authority of the State of Alabama.

The financial transactions of the Authority are recorded in the funds, which consist of a separate set of self-balancing accounts that comprise its assets and deferred outflows, liabilities and deferred inflows, net position, revenues, and expenses as appropriate.

Required Basic Financial Statements

The basic financial statements of the Authority report information about the Authority using accounting methods similar to those used by private sector companies. These statements offer information about the Authority's activities. The statements of net position include all of the Authority's assets and liabilities and provide information about the nature and amounts of investments in resources (assets), consumption of net position that is applicable to future reporting periods (deferred outflows), obligations to Authority creditors (liabilities), and the acquisition of net position that is applicable to future reporting periods (deferred inflows). The assets and liabilities are presented in order of liquidity.

All of the reporting period's revenues and expenses are accounted for in the statement of revenues, expenses, and changes in net position. This statement measures the activities of the Authority's operations over the past year and presents the resulting change in net position – calculated as revenues less expenses.

The final required financial statement is the statement of cash flows. The primary purpose of this statement is to provide information about the Authority's cash receipts and cash payments during the reporting period. The statement reports cash receipts, cash payments, and net changes in cash resulting from operating, investing, noncapital financing and other financing activities and provides information regarding the sources and uses of cash and the change in the cash balance during the reporting period.

Condensed Financial Information

Statements of Net Position

The following table presents condensed information about the net position of the Authority as of September 30, 2021 and 2020, and changes in the balances of selected items during the fiscal year ended September 30, 2021 (\$ in thousands):

ALABAMA HOUSING FINANCE AUTHORITY MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

Statements of Net Position – Continued

Current assets increased \$347,591,000 from September 30, 2020 to September 30, 2021, due to increases in mortgage loans, net and investments and restricted investments. The increase in mortgage loans, net is the result of increased purchase volume of loans held for sale. Investments and restricted investments increased as a result of the administration of federal programs ERA, ERA2 and MAA.

Noncurrent assets decreased \$20,274,000, primarily due to decreases in mortgage loans receivable, net and restricted mortgage-backed securities. The decrease in mortgage loans receivable, net and mortgage-backed securities resulted from normal paydowns and prepayments.

Current liabilities decreased \$6,955,000 due to regular principal payments made to reduce the outstanding balance of obligations under reverse repurchase agreements.

Noncurrent liabilities increased \$327,873,000, primarily due to an increase in refundable federal program grants, net. This increase in refundable federal program grants, net is due to the administration of federal programs ERA, ERA2 and MAA.

Operating and Nonoperating Revenues, Expenses, and Changes in Net Position

The following table presents condensed statements of revenues, expenses, and changes in net position for the Authority for the years ended September 30, 2021 and 2020, and the change from the prior year (\$ in thousands):

ALABAMA HOUSING FINANCE AUTHORITY MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

Operating and Nonoperating Revenues, Expenses, and Changes in Net Position – Continued

Operating revenues decreased \$6,907,000. The decrease in interest on mortgage loans and mortgage-backed securities and investment income is the result of a decline in interest rates and a decrease in the carrying value of mortgage-backed securities. The decrease in net realized and unrealized gain (loss) on investments and mortgage servicing rights resulted from a decrease in the related carrying value of mortgage-backed securities. The decrease in loan servicing fees and other income was driven by a decrease in the loan portfolio as a result of an increase in loan payoff volume.

Operating expenses increased \$2,300,000. The increase in amortization of mortgage servicing rights was driven by an increased volume of early loan payoffs. Program, general and administrative expenses decreased as a result of accelerated loan payoffs and a decrease in the loan portfolio.

As a result of the aforementioned factors, operating income decreased \$9,207,000 from September 30, 2020 to September 30, 2021.

Nonoperating revenues decreased \$1,483,000. The decrease resulted from additional HOME federal projects funded.

1. AUTHORITY LEGISLATION

The Alabama Housing Finance Authority (the Authority) is a public corporation created, organized, and existing under Act No. 80-585 (the Act) originally enacted by the Legislature of the State of Alabama at its 1980 regular session. Pursuant to the Act, as amended, the Authority is authorized, among other things, to issue bonds to finance residential housing for persons and families of low and moderate income in the State of Alabama. The Authority is a component unit of the State of Alabama.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The Authority's accounts are organized as funds, which include accounts of the assets, deferred outflows, liabilities, deferred inflows, net position, revenues, and expenses of the Authority's single-family bond programs (Single Family Programs), Federal Programs, the Housing Assistance Fund, and the General Fund. Each Program Fund accounts for the proceeds from the bonds issued, the debt service requirements of the bonds and the related program investments, as required by the various bond resolutions established under the various trust indentures of each program.

The Authority uses the accrual method of accounting. The Authority's funds – Single Family Programs, Federal Programs, Housing Assistance, and General – have been presented on a combined basis, as the Authority is considered a single enterprise fund for financial reporting purposes. Current assets include cash and amounts convertible into cash during the next normal operating cycle or one year. Current liabilities include those obligations to be liquidated with current assets. All inter-fund balances and transactions have been eliminated in the accompanying financial statements. Revenues and expenses from the Single Family Programs, Housing Assistance, and General funds are reported as operating revenues and expenses.

Federal Program receipts are recognized in proportion to Federal Program expenditures as incurred. Federal Program activities are reported in nonoperating revenues (expenses) in the accompanying financial statements, in accordance with Governmental Accounting Standards Board (GASB) No. 24, Accounting and Financial Reporting for Certain Grants and Financial Assistance.

Use of Estimates in the Preparation of Financial Statements

In preparing financial statements in conformity with accounting principles generally accepted in the United States of America, management is required to make estimates and assumptions that affect 1) the reported amounts of assets and liabilities, 2) the disclosure of contingencies at the date of the financial statements, and 3) revenues and expenses during the reporting period. Actual results could differ from those estimates.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Fair Value Application and Measurement

Fair value is applied to assets and liabilities that the Authority holds primarily for the purpose of income or profit and that have a present service capacity based solely on their ability to generate cash or to be sold to generate cash. The Authority categorizes its fair value measurements within the value hierarchy established by generally accepted accounting principles (GAAP). The hierarchy is based upon valuation inputs used to measure the fair value of the respective asset or liability. Level 1 inputs include quoted prices in active markets for identical assets. Level 2 inputs include observable inputs other than quoted prices included in Level 1 inputs. Level 3 inputs include unobservable inputs.

Cash on Deposit

Cash on deposit represents funds on deposit with various financial institutions and uninvested funds held by the Trustees of the Authority's various bond programs. At September 30, 2021, all cash on deposit held by the Authority's trustees was in the name of the Authority. Cash on deposit consists of unrestricted and restricted cash totaling \$33,540,000 and \$26,679,000 as of September 30, 2021 and 2020, respectively. All cash on deposit at September 30, 2021 and 2020, was covered by federal depository insurance or collateralized by the various financial institutions.

Investments

The Act authorizes the Authority to invest in bonds or other obligations issued or guaranteed by the U.S. Government, any agency thereof, or the State of Alabama. In addition, the Authority may invest in interest-bearing bank and savings and loan association deposits, any obligations in which a State chartered savings and loan association may invest its funds, any agreement to repurchase any of the foregoing, or any combination thereof. Each of the trust indentures established under the Authority's bond programs contains further restrictions on the investment of nonexpended bond proceeds; however, each trust indenture must be consistent with the Authority's authorizing legislation with respect to the definition of eligible investments.

Investments consist of temporary and debt service reserve funds established under the provisions of various trust indentures and investments of the Authority's General and Housing Assistance funds. All investments are reported at fair value.

The Authority follows the provisions of GASB Statement No. 40, *Deposit and Investment Risk Disclosures*. GASB Statement No. 40 addresses disclosures on deposits and investments, focusing on common investment risks related to interest rate risk, credit risk, custodial credit risk, foreign currency risk, and concentration of credit risk.

Mortgage-Backed Securities

Mortgage-backed securities consist of Ginnie Mae and Fannie Mae pass-through certificates, substantially all of which are pledged either as security for the mortgage revenue bonds or for obligations under reverse repurchase agreements. The fair value of program investments is based on quoted market prices obtained from an independent financial news and information service, where available. If quoted market prices are not available, fair values are based on quoted market prices of comparable investments.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Mortgage-Backed Securities – Continued

In accordance with GASB Statement No. 72, *Fair Value Measurement and Application*, investments, including mortgage-backed securities, are recorded at fair value, and unrealized gains or losses are reported in the statements of revenues, expenses, and changes in net position. The Authority records a portion of net unrealized gains on investment securities as a liability to the extent that such gains would be rebateable to the United States government under Section 103A of the Internal Revenue Code, as amended (the Code), for tax-exempt bond issues sold after 1981. The Code requires that such excess investment earnings be rebated to certain single-family borrowers upon payoff of their respective mortgages or remitted to the Internal Revenue Service. Gains on sales of securities in these bond issues would create excess rebateable earnings. There were no such rebateable earnings for the years ended September 30, 2021 or 2020.

Commitment Fees

Returnable commitment fees are deferred and recognized as income at the time they are no longer returnable. Commitment fees related to loans pooled and sold in secondary markets are recognized upon receipt.

Mortgage Loans Receivable

Mortgage loans that the Authority has the ability and intent to hold for the foreseeable future are carried at their unpaid principal balances less an allowance for loan losses. Management determines the allowance for loan losses based on historical losses and current economic conditions as well as its evaluation of the loan portfolio and the underlying security.

Mortgage Loans Held for Sale

Mortgage loans held for sale are recorded at the lower of cost or fair value. The Authority routinely enters into contracts with various investors to sell these loans in secondary markets and had commitments to deliver mortgage-backed securities at September 30, 2021. The fair value of committed loans is based upon commitment prices. See note 9, Derivative Instruments.

Federal Programs Loans Receivable

HOME Program loans are designed to assist very low-income tenants, and, as such, some mortgages originated under the program are structured in such a way that repayment will only occur in limited circumstances.

The TCAP Program, authorized by the American Recovery and Reinvestment Act of 2009, is designed to assist housing developments financed with Low-Income Housing Tax Credits.

The Hardest Hit Alabama Fund, authorized by the U.S. Department of Treasury, is designed to provide forgivable funds to help families in states hardest hit by the foreclosure crisis in conjunction with high unemployment rates. All Hardest Hit Alabama financial assistance will be forgiven at or before the program's closure in December 2021.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Federal Programs Loans Receivable – Continued

The ERA and ERA2 Programs, authorized by the U.S. Department of Treasury, are designed to provide rental and utility assistance grants to tenants affected by the novel coronavirus.

The MAA Program, authorized by the U.S. Department of Treasury, is designed to provide mortgage assistance grants to homeowners affected by the novel coronavirus.

The HOME-ARP Program, authorized by the U.S. Department of Housing and Urban Development (HUD), is designed to assist individuals or households who are homeless or at risk of being homeless by providing housing or rental assistance.

Debt Financing Costs

The Authority follows the provisions of GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*. Issuance costs on bonds are expensed as incurred.

Mortgage Loan Servicing

As of September 30, 2021 and 2020, the Authority serviced \$5,596,071,000 and \$5,889,271,000, respectively, in mortgage loans. Escrow balances associated with these loans are not included in the statements of net position of the Authority.

The mortgage loan servicing portfolio by state consisted of the following at September 30, 2021 (\$ in thousands):

Alabama	\$ 1,108,909	20% 8%
Arkansas Mississippi	452,263 254,812	6% 5%
Missouri	911,788	16%
North Carolina	2,865,300	51%
Other	 2,999	0%
	\$ 5,596,071	100%

As a result of the novel coronavirus, the Federal Housing Administration (FHA) and the Federal Housing Finance Authority (FHFA) offered forbearance, loss mitigation options and implemented a moratorium on single family foreclosures and evictions. The Authority is working with homeowners who are experiencing financial hardships and will continue these efforts into 2022.

Mortgage Servicing Rights

The Authority follows the provisions of GASB Statement No. 62, entitled *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements.* In accordance with those standards, the cost of mortgage servicing rights is amortized in proportion to, and over the period of, estimated net servicing revenue. The amount originally capitalized is adjusted based on whether related loans are pooled and sold in secondary markets or maintained by the Authority.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Other Real Estate Owned

The Authority states its other real estate owned acquired through foreclosure without further obligation to security holders, which is included in noncurrent other assets, at the lower of cost or fair value at the date of foreclosure. Fair value is determined based on independent appraisals and other relevant factors. Any write-down to fair value is charged to the allowance for loan losses. The Authority held properties totaling approximately \$73,000 and \$132,000 at September 30, 2021 and 2020, respectively, net of the allowance for loan losses.

Pool Buyouts

The Authority holds certain mortgages purchased out of respective Ginnie Mae, Freddie Mac, or Fannie Mae pooled loans being serviced by the Authority. These are insured loans that are in the process of foreclosure for which the Authority anticipates receiving claim proceeds from the respective investor or guarantor. As a result of the FHA and FHFA moratoriums on single family foreclosures and evictions, the Authority's loan loss reserve at September 30, 2021 was \$3,193,000.

Deferred Outflows of Resources

Deferred outflows of resources include pension-related deferred outflows, which result from the Authority's Employees' Pension Plan (Pension Plan). Pension-related deferred outflows represent differences between expected and actual experience, changes in assumptions and amounts resulting from timing differences of contributions made subsequent to the Pension Plan measurement dates but as of the date of the basic financial statements. Pension-related deferred outflows are recognized over a closed period and are amortized over the remaining average service life of all participating active and inactive employees.

Deferred Inflows of Resources

Deferred inflows of resources include pension-related deferred inflows, which represent the difference between projected and actual earnings on investments within the Pension Plan, are recognized over a closed period, and are amortized over a five-year period.

Net Pension Liability

Net pension liability represents the portion of the present value of projected benefit payments attributed to past periods of service to be provided through the Pension Plan to current active and inactive employees less the fiduciary net position of the Pension Plan. It represents the Authority's total pension liability minus the fiduciary net position available to pay that liability. Investments that comprise the fiduciary net position are reported at fair value.

Pension Plan Expense

The Authority is required to measure and disclose amounts relating to net pension liability, deferred outflows of resources and deferred inflows of resources, pension expense, and the fiduciary net position of the Pension Plan. Actuarially determined periodic contributions are made by the Authority in order to maintain sufficient assets to pay benefits when due.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Reclassifications

Certain amounts in the September 30, 2020 financial statements have been reclassified to conform to the September 30, 2021 presentation. The reclassifications had no effect on net position, results of operations or cash flows of the Authority as previously presented.

Subsequent Events

The Authority has evaluated subsequent events through December 15, 2021, which is the date the financial statements were available to be issued.

3. MORTGAGE-BACKED SECURITIES

Mortgage-backed securities held by the Authority include securitized mortgage obligations, backed by pools of single-family mortgage loans originated under the Authority's program guidelines. These securities are "fully modified pass-through" mortgage-backed securities which require monthly payments by an FHA-approved or a Fannie Mae-approved lender, as the issuers of the guaranteed securities, and are registered in the Authority's name. Ginnie Mae and Fannie Mae guarantee timely payment of principal and interest on guaranteed securities. At September 30, 2021, mortgage-backed securities consisted of program certificates with interest rates ranging from 4.42% to 8.06%. The cost of program investments at September 30, 2021 and 2020, was \$75,391,000 and \$93,978,000, respectively.

Fair value of the Authority's mortgage-backed securities are measured by Level 1 inputs based upon quoted prices in active markets. As a result of changes in the fair value of mortgage-backed securities, the Authority recorded net unrealized gains (losses) of (\$2,439,000) and \$1,221,000 for the years ended September 30, 2021 and 2020, respectively. Interest rates may adversely affect the fair value of the mortgage-backed securities; however, it is the intention of the Authority to hold these securities until the underlying loans are paid in full.

4. INVESTMENTS

Investments consisted of the following at September 30 (\$ in thousands):

Investment Type		2021	% of Total		2020	% _of Total
Money market funds US Government Agency securities Mortgage-backed securities	\$	526,961 956 -	100% 0% 0%	\$	238,238 975 <u>31</u>	100% 0% 0%
	<u>\$</u>	527,917	100%	<u>\$</u>	239,244	<u> </u>

4. INVESTMENTS – CONTINUED

Fair Value

The fair value of the Authority's investments is measured by Level 1 inputs based upon quoted prices in active markets and consisted of the following at September 30 (\$ in thousands):

Investments	 2021	 2020
Dreyfus US Treasury	\$ 2,795	\$ 8,973
Federated Government Obligations	106,100	158,302
Federated US Treasury Cash Reserves	334,446	-
Federated Money Market	281	283
First American Government Obligations	83,339	70,680
Mortgage-backed Securities	-	31
US Treasury Note	 956	 975
Total investments	\$ 527,917	\$ 239,244

The cost of investments at September 30, 2021 and 2020, was \$527,796,000 and \$239,102,000, respectively. As a result of changes in the fair value of investments, the Authority recorded net unrealized gains (losses) of (\$23,000) and \$88,000 for the years ended September 30, 2021 and 2020, respectively.

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligation to the Authority. Investments for each bond issue are those permitted by the various bond indentures and rating agencies. (See "Summary of Significant Accounting Policies – Investments" for additional information concerning permitted investments of the Authority.) As of September 30, 2021, the Authority's money market, government and government agency investments were rated Aaa by Moody's Investor Services meeting the criteria of the Authority and the respective bond issue rating agencies.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates may adversely affect the fair value of the investment portfolio. Investment maturities will coincide with anticipated debt service payment dates and expected cash flow obligations associated with the respective bond maturities and obligations for the Authority's bond programs and other funds. Trust indentures, market conditions, rates of return, interest rate spreads, and other factors influence maturity selection for all funds in excess of those required to meet projected cash flow obligations. Investments are generally designed to match the life of their related liabilities at fixed interest-rate spreads. Longer-term maturity investments provide sufficient monthly cash flows to meet any short-term obligations.

4. INVESTMENTS – CONTINUED

Interest Rate Risk – Continued

		Inve	n Years (\$ in thousa	ands)	
Investment Type	Fair Value	Less than 1	1-5	<u> </u>	More than 10

	<u>\$ 527,917</u>	<u>\$ 526,961</u>	<u>\$ 956</u>	<u>\$ -</u>	<u>\$ -</u>

Custodial Credit Risk

For an investment, custodial credit risk is the risk that, in the event of the use of a custodial agent, the Authority may not be able to recover the value of its investments or collateral securities that are in possession of that outside party. All investments in the General and Housing Assistance funds are held in safekeeping or custodial accounts at approved safekeeping agents of the Authority in the Authority's name. All investments in the Authority's bond issues are registered in the name of the issues' designated trustee.

Concentration of Credit Risk

Concentration of credit risk is the risk of loss that may be attributed to the magnitude of an investment in a single type of security. The table below lists all investments by investment provider and type as of September 30, 2021 (\$ in thousands).

Provider		Money Market Funds	Ba	tgage- icked urities	Gove Ag	JS rnment ency urities	 Total	Percent

	\$ 527.917	\$ 239.244

5. MORTGAGE LOANS

The Authority's single-family programs are designed to provide mortgage loans to qualified homebuyers within the State of Alabama. The Authority's guidelines generally require the mortgage loans to be either FHA-insured, guaranteed by the Department of Veterans Affairs, USDA Rural Development insured or conventionally financed with traditional primary mortgage insurance.

The Authority's single-family financing program guidelines allow for down payment assistance of up to 3.5% of the sales price and a maximum amount of \$7,500. Current program guidelines require the loan to bear the same interest rate as the first mortgage of the property being purchased and be amortized over a 10-year period with 120 equal monthly principal and interest payments.

The Authority provides permanent financing of home mortgages to Alabama Habitat for Humanity affiliates to help further the affiliates goal of providing safe, decent, and affordable housing to low-income Alabamians. The loans bear an interest rate of 0% and require equal monthly principal payments over the life of the loan and must not exceed a 30-year term.

Mortgage loans receivable, net of the allowance for loan losses consisted of the following at September 30 (\$ in thousands):

		2021	 2020
Mortgage loans receivable (0% to 8.2%): Conventional Down payment assistance/Habitat for Humanity loans	\$	2,455	\$ 2,255
(0% to 7.33%)		29,195	 32,717
Less allowance for loan losses		31,650 <u>(3,075</u>)	 34,972 (3,710)
Total mortgage loans receivable, net	<u>\$</u>	28,575	\$ 31,262

Mortgage loans receivable are classified in the accompanying statements of net position as follows (\$ in thousands):

		2021	 2020
Current assets – Mortgage loans receivable, net Noncurrent assets – Mortgage loans receivable, net	\$	4,250 24,325	\$ 4,790 26,472
	<u>\$</u>	28,575	\$ 31,262

5. MORTGAGE LOANS - CONTINUED

Mortgage loans held for sale to be securitized as mortgage-backed securities and sold for the Authority are reported at fair value measured by Level 2 inputs based on observable quoted prices of similar assets. Mortgage loans held for sale to be securitized as mortgage-backed securities for other entities are reported at cost. Mortgage loans held for sale were \$99,609,000 and \$44,659,000 as of the years ended September 30, 2021 and 2020, respectively.

6. OBLIGATIONS UNDER REVERSE REPURCHASE AGREEMENTS

Obligations under reverse repurchase agreements represent obligations whereby the Authority enters into a sale of securities with a simultaneous agreement to repurchase them in the future at the same price plus a contract rate of interest. The Authority had obligations under reverse repurchase agreements of \$44,600,000 and \$52,350,000 as of September 30, 2021 and 2020, respectively, which were collateralized by securities with fair values totaling \$50,254,000 and \$62,007,000, as of the years ended September 30, 2021 and 2020, respectively.

The market value of the securities underlying the reverse repurchase agreements normally exceeds the cash received, providing the dealer a margin against a decline in the market value of the securities. If the dealer defaults on their obligation to resell these securities to the Authority or provide securities or cash of equal value, the Authority would suffer an economic loss equal to the difference between the fair value plus accrued interest of the underlying securities and the agreement obligation, including accrued interest. There was no credit exposure as of September 30, 2021 and 2020.

7. BONDS PAYABLE

Bonds payable are limited obligations of the Authority and are not a debt or liability of the State of Alabama or any subdivision thereof. Each bond issue is secured, as described in the applicable trust indenture, by all revenues, moneys, investments, mortgage loans, and other assets in the funds and accounts of the program under which such bonds were issued. The provisions of the applicable trust indentures require or allow for redemption of bonds through the use of unexpended bond proceeds and excess funds accumulated primarily through prepayment of mortgage loans and program certificates. All outstanding bonds are subject to redemption at the option of the Authority, in whole or in part at any time after certain dates, as specified in the respective series indentures.

7. BONDS PAYABLE – CONTINUED

Bonds payable consisted of the following at September 30 (\$ in thousands):

	Aggregate Principal Outstanding			Original Maturity		
Single-family bond programs:		2021		2020		Value
2000/2003 Step Up Program (4.42% to 7.80%), due 2032 to 2036 2016 Series A (2.43%), due 2026 2003 First Step Program (4.82% to 5.00%), due	\$	10,057 1,000	\$	12,124 1,000	\$	128,927 1,000
2003 First Step Program (4.82% to 5.09%), due 2036		105		111		793
Less current maturities		11,162 <u>(806</u>)		13,235 <u>(888</u>)		
Noncurrent maturities	<u>\$</u>	10,356	\$	12,347		

Principal and interest payments on bonds after 2021 are scheduled as follows (\$ in thousands):

Fiscal Year Ending <u>September 30</u>	Principal		Interest
2022	\$ 806	\$	593
2023	-		593
2024	-		593
2025	-		593
2026	1,000		587
Thereafter	9,356		4,406
	<u>\$ 11,162</u>	<u>\$</u>	7,365

8. NET POSITION

The Authority's net position is comprised of the various net earnings from operating and nonoperating revenues, expenses, and contributions of capital. The net position is classified in the following three components: investment in capital assets, net of related debt; restricted net position; and unrestricted net position. Investment in capital assets, net of related debt, consists of all capital assets, net of accumulated depreciation and reduced by outstanding debt that is attributable to the acquisition, construction, and improvement of those assets; debt related to unspent proceeds or other restricted cash and investments is excluded from the determination. Restricted net position consists of net position for which constraints are placed thereon by external parties, such as lenders, grantors, contributors, laws, regulations and enabling legislation, including self-imposed legal mandates. Unrestricted net position consists of all other net position not included in the above categories.

The various trust indentures generally permit transfers to the Authority's General fund for administrative fees and reimbursements of costs associated with the administration of the bond programs. Otherwise, the cash and investments of the various program funds are retained in the trust indentures to satisfy debt service obligations with respect to the applicable bonds, and are restricted to this purpose. Such amounts are reflected as restricted components of net position.

9. DERIVATIVE INSTRUMENTS

At September 30, 2021, the Authority had \$31,257,000 in forward sales commitments to issue Ginnie Mae and Freddie Mac securities securitized by single-family loans. These instruments are utilized to hedge changes in fair value of mortgage loans held for sale and interest rate risk on commitments to purchase mortgage loans from originating mortgage lenders. The Authority is subject to market value fluctuations in the event that mortgage loans are not originated as expected and the committed securities cannot be delivered.

9. DERIVATIVE INSTRUMENTS – CONTINUED

The Authority is subject to credit risk with respect to counterparties to the forward sales commitment contracts summarized as follows (\$ in thousands):

Delivery Date	Coupon Rate	Outstanding Notional Amount	Fair Values	Counterparty Credit Rating
<u>Freddie Mac</u> October 2021 October 2021	2.5% 3.0%	\$ 243 1,014 1,257	\$(1) (1)	AAA AAA
<u>Ginnie Mae</u> October 2021 October 2021 November 2021 December 2021	2.5% 2.5% 2.5% 2.5%	3,000 7,000 10,000 <u>10,000</u> <u>30,000</u>	(7) 1 (24) (25) (55)	A1 AAA BBB- BBB-
		<u>\$ 31,257</u>	<u>\$ (56</u>)	

10. CONDUIT DEBT

From time to time, the Authority issues bonds to provide multifamily housing for the citizens of Alabama. The Authority functions as a conduit to provide tax-exempt financing. These bonds do not constitute a debt or pledge of the faith and credit of the Authority or the State of Alabama, and accordingly, have not been reported in the accompanying financial statements.

The Authority does not actively monitor the operating performance or financial condition of the multifamily properties financed by the bonds. Multifamily mortgage loans are collateralized by varying methods, including first liens on multifamily residential rental properties located within the State of Alabama, short-term investments, letters of credit, surety bonds, and guarantees provided by third parties. The Authority has no obligation for the bonds beyond these resources.

All variable rate bonds bear interest at a weekly rate until maturity or earlier redemption. The remarketing agent for each bond issue establishes the weekly rate according to each indenture's remarketing agreement. The weekly rates are communicated to the various bond trustees for preparation of debt service payments. The weekly rate, as set by the remarketing agent, allows the bonds to trade in the secondary market at a price equal to 100% of the principal amount of the bonds outstanding, with each rate not exceeding maximum rates permitted by law.

10. CONDUIT DEBT – CONTINUED

Conduit debt consisted of the following at September 30 (\$ in thousands):

	Aggregate Principal Outstanding			Original Maturity		
		2021		2020		Value
2000 Series A (variable), due 2030	\$	4,800	\$	5,100	\$	6,000

	\$	<u>96,191</u>	\$	16,361

11. RETIREMENT PLANS

Defined Contribution Plan

Substantially all full-time employees of the Authority participate in a defined contribution retirement plan, the Alabama Housing Finance Authority Retirement Plan (the Retirement Plan), which provides retirement benefits to participants. The Retirement Plan is administered by Corporate Financial Services, LLC, an independent, third-party administrator. To be eligible, an employee must meet certain age and service requirements. Once an employee is eligible, participation is mandatory. Each employee must contribute 5% of their compensation to the Retirement Plan annually. The Authority contributes an amount equal to 7% of each participant's compensation annually. The Authority's contributions to the Retirement Plan were \$653,000 and \$642,000, in fiscal 2021 and 2020, respectively. The employees' contributions to the Retirement Plan were \$466,000 and \$459,000, in fiscal 2021 and 2020, respectively. The employees vest in the Authority's contribution based upon a six-year vesting schedule.

Defined Benefit Plan

Plan Description

The Authority established the Alabama Housing Finance Authority Employees' Pension Plan (the Pension Plan), a single-employer defined benefit pension plan, on September 26, 2002. All Pension Plan investments are reported at fair value. The Pension Plan provides retirement, death, disability, and termination benefits to participants and beneficiaries.

Benefit provisions are established by the Board of Directors (the Board) under a formal, written plan document and assets are held under a separate tax-qualified plan trust. Those provisions can only be amended by the Board. The plan and trust information can be obtained from the Alabama Housing Finance Authority, 7460 Halcyon Pointe Drive, Suite 200, Montgomery, AL 36117. A separate stand-alone financial report for the Pension Plan is available.

Benefits Provided

An employee is eligible to participate in the Pension Plan on the next October 1 or April 1 following the completion of six months service and attainment of age 21. A participant's normal retirement date is age 65, or five years' participation, if later. A participant is eligible for early retirement upon attainment of age 55 and 10 years of service. In addition, a participant is entitled to a vested benefit based on years of service as follows: 3 years 20%, 4 years 40%, 5 years 60%, 6 years 80%, and 7 or more years 100%. In addition, in the event of death or qualifying disability, benefits are 100% vested and are available to be paid immediately.

A participant's normal retirement benefit payable at normal retirement as a life annuity is equal to 2% of an employee's average compensation multiplied by years of credited service. Average compensation is based on the 36 highest consecutive months that results in the highest average. Credited service is based on 1,000 hours per plan year and is determined from date of hire (with maximum of 25 years). Certain special service rules applied before May 1, 2015. Normal retirement benefits are paid monthly and can be paid in other forms of annuities as elected by the participant including single payment lump sums.

11. RETIREMENT PLANS – CONTINUED

Defined Benefit Plan – Continued

Benefits Provided – Continued

Benefits paid at early retirement are the actuarial equivalent normal retirement benefit. Benefits payable at death, disability, or vested benefits are the actuarial equivalent single sum value of the normal retirement benefit. Lump sums are based on the actuarial equivalent factors, or the IRS minimum lump sum basis, if higher.

Contributions

Contribution requirements and benefit provisions of the Pension Plan are established by the Board. The funding policy provides for actuarially determined periodic contributions of amounts that will enable sufficient assets to pay benefits when due. The funding basis has been the range of contributions from the minimum (Minimum Required Contribution) to maximum deductible under federal pension laws related to applicable pension plans. Contributions have been determined under the funding laws under the Pension Protection Act of 2006 and later related funding law changes.

Contributions were \$1,404,000 and \$1,660,000, equaling approximately 15.21% and 17.80% of payroll of covered participants for the years ended September 30, 2021 and 2020, respectively.

Investments

Policies pertaining to the allocation of investments within the Pension Plan are established by the Authority. It is the policy of the Authority to invest pension assets in securities that provide growth and income while maintaining a balanced level of risk tolerance. The following illustrates the approved asset allocation policy for the years ended September 30, 2021 and 2020:

	% Range of Allocation			
	Minimum	Target	<u>Maximum</u>	
Investment Type:				
Large cap domestic equity securities	15%	30%	50%	
Small-Mid cap domestic equities	0%	10%	20%	
International equity	0%	10%	20%	
Fixed income and cash equivalent securities	30%	50%	60%	
Alternatives	0%	0%	15%	

11. RETIREMENT PLANS – CONTINUED

Defined Benefit Plan – Continued

Investments – Continued

Permitted securities in which assets of the Pension Plan may be invested include any of the following:

Equity Securities

US common and preferred stocks US equity mutual funds Equity exchange traded funds International equity mutual funds

Fixed Income Securities/Cash Equivalents

US government US mortgage and asset-backed US corporate bonds Taxable municipal bonds Fixed income mutual funds Fixed income exchange traded funds Money market mutual funds Money market exchange traded funds Cash

Alternatives

Real estate mutual funds Real estate exchange traded funds Multi-alternatives strategy mutual funds Multi-alternative strategy exchange traded funds

The fair value of investments is determined by market prices.

As of September 30, 2021 and 2020, there were no concentrations of investments in any organization that represented 5% or more of the Pension Plan's fiduciary net position.

For years ended September 30, 2021 and 2020, the estimated annual weighted rate of return based on the Bankers Index Method (BAI) was 14.10% and 6.18%, respectively. The BAI rate of return expresses investment performance, net of investment expense, adjusted for the amounts actually invested with contributions and disbursements deemed to be made uniformly throughout the year.

The assumed discount rate related to plan investments was 7.00%.

11. RETIREMENT PLANS – CONTINUED

Defined Benefit Plan – Continued

Investments – Continued

The fiduciary net position of the Pension Plan at September 30, 2021 and 2020 was invested as follows (\$ in thousands):

	2	2020		
Cash equivalents Equity securities Fixed income securities	\$	469 12,643 <u>12,317</u>	\$	235 10,525 <u>10,464</u>
Total	<u>\$</u>	25,429	<u>\$</u>	21,224

Actuarial Assumptions

The Pension Plan was measured as of September 30, 2021 and 2020, and the total pension liability used to calculate the net pension liability was determined by actuarial valuations as of those dates.

The total pension liability in the September 30, 2021 and 2020 actuarial valuations was determined using the following actuarial assumptions, applied to all periods included in the measurement:

	Rate
Inflation	3.00%
Salary increases	4.50%
Investment rate of return	7.00%

Mortality rates used in the September 30, 2021 actuarial valuation were based on the 2021 Applicable Mortality Table for small plans under the minimum funding requirements of IRC Section 430. Mortality rates used in the September 30, 2020 actuarial valuation were based on the 2020 Applicable Mortality Table for small plans under the minimum funding requirements of IRC Section 430. Retirements were assumed based on each participant's normal retirement date with benefits payable in the form of a lump sum based on applicable lump sum rates. Prior to retirement, turnover was based on the T-1 withdrawal rates which reflects lower turnover.

The long-term expected rate of return on the Pension Plan, based on using best-estimate ranges of expected future real rates of return (expected returns, net of inflation), was developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding future inflation.

11. RETIREMENT PLANS – CONTINUED

Defined Benefit Plan – Continued

Actuarial Assumptions – Continued

The target allocation and best estimates of arithmetic real rates of return for each major asset class for the years ended September 30, 2021 and 2020 are summarized below:

Asset Class	Target Allocation	Expected Long-Term Rate of Return
Equity	50%	5% – 8%
Fixed Income	50%	2% – 5%

The discount rate used to measure the total pension liability at September 30, 2021 and 2020 was 7.00%. The Pension Plan's fiduciary net positions are projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on the pension investments was applied to all periods of projected benefit payments to determine the total pension liability.

Changes in the Net Pension (Asset) Liability (\$ in thousands)

	Total Pension Liability (A)	Pension Fiduciary Net Position (B)	Net Pension (Asset) Liability (A) - (B)

Balances at September 30, 2020	<u>\$ 20,214</u>	<u>\$21,595</u>	<u>\$ (1,381</u>)

The change in assumptions reflected in the changes in net pension (asset) liability for the years ended September 30, 2021 and 2020 was the result of basing the valuation on the 2020 and 2019 Applicable Mortality Tables in lieu of the 2021 and 2020 Applicable Mortality Tables.

Sensitivity of the Net Pension (Asset) Liability to Changes in the Discount Rate

The following information presents the net pension (asset) liability calculated using the discount rate of 7.00% as well as net pension (asset) liability using a discount rate that is 1.00% lower or 1.00% higher than the current rate for the years ended September 30:

	1% Decrease (6%)		Current Discount Rate (7%)		Maximum 1% Increase (8%)	
2021 2020	\$	(2,873) (143)	\$	(3,783) (1,381)	\$	(4,952) (2,555)

11. RETIREMENT PLANS – CONTINUED

Defined Benefit Plan – Continued

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the years ended September 30, 2021 and 2020, the Pension Plan recognized pension expense of \$515,000 and \$341,000, respectively. At September 30, 2021 and 2020, the Authority reported deferred outflows of resources and deferred inflows of resources related to the Pension Plan from the following sources (\$ in thousands):

		2020		
Deferred Outflows: Differences between expected and				
actual experience	\$	4,140	\$	5,295
Net differences between projected and actual earnings on investments Changes in assumptions		- 41		538 164
Gross deferred outflows		4,181		5,997
Deferred Inflows: Net differences between projected and				
actual earnings on investments		1,102		
Gross deferred inflows		1,102		
Net deferred outflows	<u>\$</u>	<u>3,079</u>	<u>\$</u>	5,997

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows (\$ in thousands):

2022	\$ 82
2023	127
2024	49
2025	(29)
2026	(62)
Thereafter	2,912

12. OPERATING LEASES

The Authority leases office space under an operating lease expiring in December 2029. Rent expense for the years ended September 30, 2021 and 2020, totaled \$1,009,000 and \$900,000, respectively. These amounts are included in program, general, and administrative expenses in the accompanying financial statements. Future minimum rental payments required under these leases for the years ending September 30 are as follows (\$ in thousands):

2022	\$ 1,043
2023	1,077
2024	1,106
2025	1,141
2026	1,176
Thereafter	 3,743
	\$ <u>9,286</u>

13. EARLY RETIREMENT OF BONDS

The Authority's mortgage revenue bonds are subject to certain extraordinary redemption provisions. During the years ended September 30, 2021 and 2020, the Authority called approximately \$2,073,500 and \$1,776,000 (net of unamortized discounts), respectively, of single-family bonds in advance of their scheduled maturities.

14. CONTINGENCIES

The outbreak of the novel coronavirus has adversely impacted global commercial activity and contributed to significant volatility in financial markets. The coronavirus pandemic and government responses are creating disruption in global supply chains and adversely impacting many industries. The outbreak could have a continued material adverse impact on economic and market conditions and trigger a period of global economic slowdown. The rapid development and fluidity of this situation precludes any prediction as to the ultimate material adverse impact of the novel coronavirus. Nevertheless, the novel coronavirus presents material uncertainty and risk with respect to the Authority, its performance and its financial results.

15. SUBSEQUENT EVENTS

The Authority has awarded Federal funds totaling \$2,150,000 under the HOME Program.

Notes to Schedule:

Valuation Date: Actuarially determined contribution rates are determined as of October 1, the beginning of the plan year.

Methods and Assumptions: The actuarial valuation is performed under the requirements of IRC Section 430; pursuant to the Pension Protection Act of 2006 (PPA) and subsequent pension laws MAP-21 and HAFTA. The valuation is calculated using PPA actuarial funding methods and prescribed discounts segmented rates. The applicable discount rates for the 2021 actuarial valuation were 3.32% (0-5 years), 4.79% (6-20 years), and 5.47% (for 20+ years). The salary increase assumption was 4.5% per year.

Other assumptions included the Applicable Mortality Table, low turnover table, Table T1, and 100% lump sum elections. The prior years' actuarial reports outline the applicable funding rates for the applicable years.
